- BOOTSTRAP

PROJECTS

Quiz Mania [🔗](#) | [html](#), [css](#), [javascript](#), [VS Code](#)

Mar 2024

- Multiple quizzes on different topics like sports, movies, and general knowledge. An interview page where the admin can create an interview by selecting participants, start and end time.
- Quiz Mania is perfect for anyone looking to challenge themselves and learn something new. The interface is intuitive and easy to navigate, making it enjoyable for users to spend time and test their knowledge.

To Do App [🔗](#) | [html](#), [css](#), [javascript](#)

2024

- Easily add, edit, and delete tasks to stay organized.
- Interactive elements with JavaScript for a seamless user experience.

Ice-Cream Game [🔗](#) | [html](#), [css](#), [javascript](#)

2024

- In this game, users can choose from a variety of toppings to add to their ice cream, creating endless combinations.
- This project showcases my ability to create interactive web applications that are both fun and functional. The Ice Cream Game is perfect for demonstrating my skills in front-end development and my creativity in designing engaging user experiences.

E-Commerece Website [🔗](#) | [html](#), [css](#), [javascript](#)

June 2024

- This website features a clean and modern design, showcasing various clothing items.
- Users can easily browse through products, view details, and add items to their cart. The use of GSAP (GreenSock Animation Platform) adds smooth and engaging animations, enhancing the user experience.
- By combining HTML, CSS, and JavaScript, I created a responsive design that works perfectly on both mobile and desktop devices. This project highlights my skills in front-end development and my ability to create interactive and visually appealing web applications.
